

TAREFAS COLORIDAS

High Quality Garments Made in Portugal

PROFILE

COMPANY PROFILE

Tarefas Coloridas translated means colourful tasks. This is honouring a young and motivated team of professionals of this area. Each department taking care of their sector to be at all time ahead of the constant changes of our challenging branch of business.

This team needs to be quick and creative and that is exactly what they are and want to represent a new beginning. In a time were stocks are no longer an option, after a year of declining sales of our partners we need to be there always, short lead-times for regular productions, even shorter lead-times for re-orders, so that our clients can avoid stocks but still deliver to their shops/clients the fastest way possible. Also to give our clients the chance to work several smaller collections and that for smaller orders along the year so that the shops can come up with new things repeatedly and gain their clients attention.

This is the future and this is the ideology of this team of professionals. To attend to their clients needs quickly, not only be responsible for the making of their production but be there for them along the whole process. We only succeed if our clients succeed and we only survive if our clients survive. Productions in Europe can give us all these possibilities.

Quality wise there is no doubt that we can offer an excellent garment quality, due to the high quality fabrics used as well as the very well known carefulness of manufacturing the garments.

Tarefas Coloridas has it's very own dying/finishing mill which enables us to have a much quicker response to our clients needs. As the interest in garment dyes and washes has gained more and more weight in fashion, the administration of this company decided to add to this also a laundry capable of many different dyes/washes.

OUR SERVICES

Sourcing of fabrics, trims, new printing techniques, new garment dyes/washes, etc

Analysing thoroughly the tecfiles send by our clients and making the questions concerning doubts at once and not after already having begun with the process. Making suggestions if asked for. While taking care of the patterns check if all is alright. Making 1st proto and fitting in the company.

Design department capable of helping out if needed. Also showing new developments and small collections for ideas.

In general Lab Dips take 3-4 days. Meanwhile fabrics are being made and artworks opened. A second proto is made and strike offs of artworks are send to the client after 10 days.

Before production we make a size set and a preproduction sample, if necessary this process is repeated. Usually lead times are 6-8 weeks max including this whole process depending of course on the quantity of styles/colours etc. Re-orders take 3-4 weeks after order placement fix at clients warehouse, of course also depending on the size of the order.

The whole process of collection making, depending of course on the size and also quantity of different fabrics and colours can take 5-6 weeks.

PREMIÈRE**ViSiON**

Our commercial department will always be present at fairs like Premiere Vision, Tissu Premiere, Bread & Butter, ISPO among other important events.

We can also count on the precious collaboration of some of the best fabric makers in Portugal like LMA, A. Sampaio, Vilartex, Lurdes Sampaio, among others. Ordering special fabrics from abroad is also no problem for us.
